

To the Aurora College Classes of 2020 & 2021,

your graduation years have gone down in the history books. You are stepping into your future in such an uncertain world. But do not look at this as something blocking your path. Look at it as a challenge that you are willing to face head on. For in challenging ourselves, making mistakes, and taking risks, you learn. Celebrate your failures, celebrate your successes, for these are the opportunities to become your best possible self.

And today we celebrate you and all that you have accomplished to get yourself to this point.  
Congratulations!!

Yellowknife South MLA Caroline Wawzonek
